

Studying our own statistics in the last five years we have the following results.

95.6% fully met our aims

From these results:

95.6% stayed with us for at least 1 year.

100% engaged in education.

100% of children made achievements in education.

95.6% made progress in their Personal Holistic Competency (i.e. a reduction of issues)

95.6% showed results that the risk to the child/young person reduced.

65.2% showed results that the risk from the child/young person reduced.

56.5% engaged in education, training or employment independently.

78.2% of young people will be able to continue education, training or employment following discharge.

In terms of our marginal gains process over a five year study, the following was achieved with young people scoring the following assessment scores.

90% - 100% = 34.7%

80% - 90% = 30.4%

70% - 80% = 21.7%

60% - 70% = 0%

50% - 60% = 4.3%

Below 50% = 8.6%
