

**Consent approval for
Outdoor Education Activities**

During your child's/young person's stay at Pear Tree we hope he/she will become involved in their Recovery Programme. This means that they will be encouraged to take part in a wide range of activities on a regular basis.

These activities although planned are sometimes arranged at short notice.

Therefore we request your consent now to enable your child/young person to participate fully in any outward bound trips.

These trips may include overnight camping, fell walking, climbing, camping, canoeing, river crossing.

These activities are always under close supervision and with the appropriately trained/qualified/experienced instructors and only when considered to be age appropriate.

I have been advised of any kind of activities Pear Tree encourage children and young people to be involved in and hereby give my consent to these activities being undertaken with my child/young person.
