

**Consent approval for
Swimming**

During your child's/young person's stay at Pear Tree we hope he/she will become involved in their Recovery Programme. This means that they will be encouraged to take part in a wide range of activities on a regular basis.

These activities although planned are sometimes arranged at short notice.

Therefore we request your consent now to enable your child/young person to participate fully in any planned swimming trips.

These can include outings to the local swimming baths and to beaches/rivers where there are suitable qualified lifeguards present.

These activities are always under close supervision.

I have been advised of any kind of activities Pear Tree encourage children and young people to be involved in and hereby give my consent to these activities being undertaken with my child/young person.
