

**Consent approval for
Horse Riding**

During your child's/young person's stay at Pear Tree we hope he/she will become involved in their Recovery Programme. This means that they will be encouraged to take part in a wide range of activities on a regular basis.

These activities although planned are sometimes arranged at short notice.

Therefore we request your consent now to enable your child/young person to participate fully in any planned horse riding activities.

These could include either at a local riding school or with Pear Tree.

These activities are always under close supervision and with the appropriately trained/qualified/experienced instructors.

I have been advised of any kind of activities Pear Tree encourage children and young people to be involved in and hereby give my consent to these activities being undertaken with my child/young person.
